

DeSantis the racist wannabe king of America 230803

IN THE NEWS. DeSantis-controlled Disney World oversight district slashes diversity, equity initiatives FRIENDS These Red Republicans have begun to openly show their true colors. They are Racist scum of America. I was born and raised in the South in Houston. Not the deep South like Mississippi, Alabama and Georgia but definitely Texas was part of the Confederacy; mind and soul. I have a book about my personal experiences in my 75 years titled "Raw White Racism" for sale on Amazon.com. I suggest you buy it, read it, encourage others to buy it. It is the only White man book about the truth of racism ever written in America. I actually thought all these racist issues were dealt with in the 60s and racist garbage governors like George Wallace of Alabama were off the American democracy platform. But I was wrong. I cannot believe the racist scum of the South have resurrected in the likes of Governor DeSantis of Florida and Abbott of Texas. Friends we have to end this racism issue once and for all such that it never rises again in America. America, especially the self-righteous and fake Christians need to take full ownership of slavery and the genocide of Native American instead of trying to bury that truth and hide it from the Millennials. Republicans are all traitors to the truth and justice of America. They will not take a stand against the soon to be convicted criminal Donald Trump and the MAGGOT mentality. Republicans are on a rampage to discount American justice and make Donald Trump a little Hitler and America into Nazi Germany not to mention the apartheid racist nation of Zion (Israel) with its crimes against humanity, with its rabid anti-Semitism against the Palestinians whose land they continue to annex rejected by International Law. DeSantis is eaten up with the racist virus of the Confederacy. Anyone who sends him money or attends one of his rallies or supports him in any way is nothing but a traitor to everything America stands for. And do not forget DeSantis' daddy in racist sickness Donald Trump who resurrected racism as president. Donald Trump is a criminal. See my website ImpeachPresidentTrumpUSA.com. I am the only true American who attacked Trump daily for 4 years. I pulled no punches. I called him on every rotten idea he had. NO ONE ELSE did this. NO REPUBLICAN called him out. In fact, the Republicans blew off two Trump impeachments. They still refuse to attack him for the January 6, insurrection. And not a single one of the Republicans who are allegedly challenging him for the Republican candidacy are standing up to him. And definitely not the Uncle Tom in the mix, Rick Scott. Any Black person that votes for the racist Trump and the Republican KKK MAGGOT movement is an enemy of civil rights and a mentally ill brainwashed brother or sister to Martin Luther King who gave his life in the fight against racism. Shame on every Black American that supports the Racist

Republican, contra-Jesus message. In conclusion, the MAGGOT TRUMP movement is all about racism. Trump is the great White hope of all racists. Sick little DeSantis is a George Wallace wannabe. Any support for Trump or DeSantis or the KKK Republicans is traitorous to Truth Justice and the American way.
