

WHITE POWER VS. WOKE, DIVERSION, EQUITY, INCLUSION, CRITICAL RACE THEORY.

IN THE NEWS: Florida Board of Education approves new Black history standards that critics call 'a big step backward'. FRIENDS The truth about White Racism and Corporate Christianity in America is that there is an absolute refusal to take ownership of Black slavery and Native American Genocide. Both of these were evil realities that were an abomination to God. In both cases it was Christians who made money off both atrocities. Both show the predatory nature of human beings fostered by Christian support. For political gain the Republicans, not the Democrats are in full steam ahead mode to deny the truth in every American education environment. There was nothing good about Black slavery or Native American genocide. It was 100% evil. Have Blacks or Native Americans recovered hundreds of years later. Not at all. There was a major movement forward in Civil Rights for Blacks in the 1960s. Then the leadership of that movement were assassinated along with a liberal President and his brother. That put the brakes on the equal rights movement. Now the Baby Boomers look around and they see their dissipation of White power and they have turned to Trump, a very evil man, to lead a social movement back to the end of WWII. Friends it is not going to happen. I thought it was going to take another decade or so for the Baby Boomers to die off in numbers such that the Gen X to Millennials would take over American society. But Trump has brought things to a head now. All the evil of slavery and genocide is on the agenda to be resolved in November 2024. The attitude in Florida and elsewhere is that slavery was just on the job training. Crazy is what that is. And it is all about a refusal of Whites to take ownership of slavery and genocide. And who are the biggest supporters of Trump, corporate Christian preachers and priests. I am a high energy, high IQ polymath born in Houston, Texas and an eye witness to White power. I have written a book about my experience with Blacks in the South and the rest of the USA. It is titled "Raw White Racism" and for sale on Amazon. Buy it Read it !!!
