IN THE NEWS: There Is No Democracy in Israel while the Occupation Continues: FRIENDS the postage stamp nation of Zion and its 14 million Jews in the world human society has been an Apartheid nation from its beginning. They run a concentration camp in Gaza for Palestinians and have caused the creation of 53 Palestinian refugee camps in the Middle East while they allow the right of return for all Jews in the world but not any Palestinians they have forced out of their homeland. Without the backing of the USA Zion would be nothing. And there are the loud crying Zionists about the Nazi Holocaust and Anti-Semitism globally when the Palestinians are Semites same as the Jews (the Jews being children of Abraham through Isaac and the Palestinians being children of Abraham through Ismael the first born of Abraham) making the Jews the most rabid anti-Semites on the planet. The most obvious is the most hidden. Well Biden has the Zionist number and is ready to crash their fantasies with a plan for a One State solution and the end of Israel. BDS Zion. Friends my fight is not with the Jews but with the radical right Zionist who want to abandon democracy for the greater Theocracy of Zion: copying the Islamic Theocracy of Iran. Let those who have ears hear and those who have eyes see. Dr John WorldPeace JD Jn 14: 25 and the only global advocate for peace and WorldPeace.

IN THE NEWS: 'Kick Russia out of the UN': Group prepares legal challenge as Russia gets set to take UN Security Council presidency: FRIENDS those of you who have been watching my tweets know that I have been for months advocating suspending Russia from the UN until Putin gets out of Ukraine. The prime directive of the UN was to prevent another war in Europe right after the end of WWII. And the UN and the rest of the world has done nothing to shut down Russia at the expense of chaos imposed on millions of Ukrainian lives. Oh the UN did charge Putin as a war criminal. By the way did anyone inform Putin about this. Just like Hitler who was appeased as he kept advancing his troops with a nice smile on his face until he rolled into Poland then Europe got the message. When Putin took over the Crimea and no one said or did much, why wouldn't he roll into the rest of Ukraine. Russia has fired so many bullets that he is going to King Blob of North Korea and begging weapons. Funny I thought China was Putins new buddy. Well you cant tell the players or the sides anymore without a program. Here is the bottom line. Putin is stuck in Ukraine and the world watches helpless and apathetic. IN THE NEWS: Donald Trump indicted by Manhattan grand jury on more than 30 counts related to business fraud: FRIENDS I love the way the prosecutor sucker punched Trump by acting like he was afraid of Trump's big mouth when he said the grand jury would take a break to the end of April and then filed the Trump indictment the next day which left Trump and his people with their mouths hanging open and their pants down. This is almost as good as Disney screwing DeSantis by voiding the legislative take over of Disney. Never underestimate a 100 year old mouse with a global business loved by all. So the DA made a fool out of Trump and the Mouse had sex with DeSantis. I laughed until my guts ached. Dr John WorldPeace JD Jn 14:25 and the only global advocate for peace and WorldPeace.

IN THE NEWS: The Idaho legislature on Thursday evening passed the nation's first law that makes it illegal for minors to travel out-of-state to get an abortion without parental consent. The bill now heads to the governor's desk. Why it matters: This is the first time that a state has put a law on the books that restricts its residents from interstate travel for abortion access. Idaho already has a near-total abortion ban in place. Neighboring Washington and Oregon allow minors to get an abortion without their parent's consent. FRIENDS these state laws are on their face unconstitutional for many reasons. All these laws make the state the guardian, surrogate parents of all these children grown from unwanted fetuses and are by family law required to pay and provide child support for all these unwanted and unintended fetuses they demand to be born. Here is the solution. When a female becomes pregnant, she automatically takes her certificate of pregnancy from a doctor to the State House and files an intent to have an abortion. The State then allows the abortion or is by law required to receive the fetus as a surrogate parent and provide for these fetuses forced to be carried full term through college. In fact, the State government is mandated to have an on site facility to provide the needs of the fetus' womb mother and deliver the fetus when it is ready to be born. All this brought to you by White Republican fake Christians who in each election scream and holler for less government. These damned fake elitist, exclusionary hell bound American Christians have declared open war on children, LGBTQueers, Blacks, nonChristians, freaks in general, the poor, artists, poets, non Republicans, creative

thinkers, the homeless, the sick, the weird, non conformists, the ugly, the handicapped and other cripples, those with college educations from secular colleges. The true Christians are all-inclusive, democratic. True Americans are all-inclusive, democratic. True Christians believe in the Radical Liberal Left message of Jesus who Trump curses of "do unto others" heal the sick, shelter the homeless, feed the hungry, welcome strangers who may well be angels, go around doing good. IN THE NEWS 'Critical first step': US Senate votes to repeal Iraq war powers Advocates say the vote shows progress in efforts to reform legal architecture of the US's post-9/11 'war on terror'. FRIENDS the tensions in the Middle East have not disappeared. The threat to America is ongoing. We need to leave things alone for now. The Republicans did not want out of Afghanistan and are investigating Biden for withdrawing. But now they want to get out of Iraq and the Middle East. A lack of consistency militarily shows weakness. When there is true peace in the Middle East we can talk about withdrawing our early warning troupes. Dr John WorldPeace JD jn 14: 25 and the only global advocate of peace and worldPeace.

IN THE NEWS Suspected truck thief fatally shot by vehicle owner who tracked him using AirTag, police say: FRIENDS it will not take many of these kinds of events showing the effectiveness of AirTags and car theft will dramatically be reduced. I can even envision vigilante groups forming that will stop all thefts of cars with tags. Tags can easily be hidden. The effectiveness would be greatly enhanced with a website of head shots of damaged car thieves by the shoot first and then call the cops rules. These victims could hang the ears of thieves from their rear view mirrors. Or just plastic ones with a name and date written on it would stop a lot of car theft.

IN THE NEWS. The previous board, which was known as the Reedy Creek Improvement District and controlled by Disney, approved the agreement on Feb. 8, the day before the Florida House voted to put the governor in charge. FRIENDS punks like DeSantis think that the office of governor is like a kingship. He thought Disney stupid and the brain trust at Disney was inferior to the delusional brain pan of a 5 foot tall governor with a god complex. So Disney seems to have shut down DeSantis for about 30 years into the future. What a mentally retarded fake human being is DeSantis.

How did he get through Harvard and Yale? Lied like Santos?? I cant wait until Trump unloads on him like a mentally challenged meme.

IN THE NEWS: It could cost California more than \$800 billion to compensate Black residents for generations of over-policing, disproportionate incarceration and housing discrimination, economists have told a state panel considering reparations. The preliminary estimate is more than 2.5 times California's \$300 billion annual budget: FRIENDS this is absolute nonsense for 3 basic reasons: 1) No black can prove any personal damages related to discrimination AND if they could they would have already filed suits. 2) The money will not change anything about current discrimination practices. It will just put money into the pockets of Blacks who are not going to contribute much of anything to stop existent discrimination but will just waste it on personal things. 3) And this is the biggest hypocritical issue: What about the slaughter and land theft from tens of millions of Native Americans. And there is the issue of Black Buffalo Soldiers participating in the genocide of Native Americans and not one single Black vote for reparations to Native Americans. 4) So here is the question: What was worse, slavery of Blacks or genocide of the Native Americans. Worse to be a slave or worse to be dead? 5) And the obvious question: why is there no obvious discussions about genocide reparations. How can you get worked up about reparations for Blacks and not about genocide and the theft of every square foot of America. 6) Solution: Bring genocide reparations into the Black reparations conversation or forget slavery reparations. Former New Jersey Gov. Chris Christie wondered if the Republican field has what it takes to stop former President Donald Trump. Christie challenged Republicans to find someone who can do to Trump "what I did to Marco" Rubio — a callback to his 2016 debate-stage evisceration of the Republican senator from Florida — "because that's the only thing that's going to defeat" Trump. "You have to be fearless, because he will come back — and right at you," Christie said. "And that means you need to think about who's got the skill to do that, and who's got the guts to do that, because it's not going to end nicely." FRIENDS there is no one in either party that can take on Trump head to head and that is me. See my anti-Trump website: <https://impeachpresidenttrumpusa.com> Back in 2016 Trump went at me on Twitter. After 30 minutes his post was taken down by his handlers. "Dont mess with WorldPeace." As with others in the past, they know they cannot defeat me in a debate on Zoom. Traveling to debates is a giant waste of

time. I post a lot of hard core commentary. Going back to 1988 when I changed my name, no one has taken me on. Who are my main adversaries, politicians and corporate Christian preachers and religionists in general. See my website "<http://KingofkingsLordoflords.com>" Within 30 minutes, a face to face with Trump would show him disengaging and leaving the stage like a whipped dog. Donald Trump's demagogic attacks on prosecutors investigating criminal charges against him are aimed at riling up his base and could spark violence, but show no signs of letting up as a potential indictment in at least one case looms, say legal experts. At campaign rallies, speeches and on social media Trump has lambasted state and federal prosecutors as "thugs" and claimed that two of them - who are Black - are "racist", language designed to inflame racial tension. He has also used anti-Semitic tropes by referring to a conspiracy of "globalists" and the influence of billionaire Jewish financier George Soros. Former Watergate prosecutor Philip Lacovara told the Guardian that Trump's lawyers are deploying different legal tactics in the investigations. Former DoJ officials and experts expect Trump and his lawyers will keep up a frenzied stream of hyperbolic attacks and legal actions. "This is more of what we saw during the election," said former deputy attorney general Donald Ayer who served in the George HW Bush administration. "He throws up gibberish and obstruction." FRIENDS what you are seeing is how the rich can manipulate the judicial system. Money wins and defends lawsuit. The law is a conflict oriented greed driven system. After 20 years as a practicing attorney, I could not tolerate it any longer. The law is not about conflict resolution but about conflict prolongation until the client runs out of money. The law is one of 8 entities that are charged with maintaining and increasing the level of peace in the world human society but in fact is used to achieve just the opposite. The core driver is the predatory nature of human beings. Dr John WorldPeace JD Jn 14:25 and the only global Advocate for peace and WorldPeace 230328

THE TRUTH ABOUT THE BOOK OF REVELATION. FRIENDS, it is time to confront the false book of Revelation which is sworn to be truth by the false Evangelical, Fundamentalist and Baptist Christian preachers. None have dared to debate me on Zoom. Let me give you the truth about prophecy which is what the Book of Revelation is. Every prophecy has some elements of truth. The Book of Revelation is prophesy and there is some hints of truth within it. But overall it is false. Two examples why the Book of Revelation is false. Jesus said over and over, MY KINGDON IS NOT OF THIS EARTH. The

Book of Revelation says Jesus will return and set up his Kingdom on earth. WRONG. Second, Jesus in his last message before he went invisible said "I will be with you always." The false Book of Revelation says Jesus left and will return in a Second Coming. WRONG. When Jesus rose from the dead he did not take up his dead human body but took up his Spiritual body. A spiritual body can appear and disappear, walk through walls ascend into the sky. A human body cannot do this. When Jesus rose into the sky at the end of his physical ministry he did not leave the earth but went invisible. How many people in the last 2000 years have claimed to see Jesus. An untold number. Jesus did not leave. Why did he go invisible? A couple of things. "Do you think it makes any sense that Jesus would kick the Pope to the curb and sit on a golden throne in Rome seeing human beings in a line that circles the world a hundred times. NONSENSE!!! Jesus hated the Jewish Religious bureaucrats who crucified him. He never had anything good to say about them. Jesus was a spiritual teacher not a bureaucratic religionist. At the end of the Book of John 21: 25 it says if all the miracles of Jesus were recorded all the books in the world could not hold them. Yet Jesus died on the cross with only a handful of women present. I tell you if anyone who experienced one of Jesus' miracles was truly grateful they would still be standing at the base of the cross to this day. Such is the evil of the world human society. So now Jesus works his miracles all over the earth in private with those in need. Infinite prayers are answered moment to moment without Jesus ever appearing. Those miracles are sworn to by those who receive them every single moment. JESUS NEVER LEFT and so he will not return per the Book of Revelation. We have entered into a period of great transition and the uplifting of the world human society has begun. The present condition of the world human society is due to spiritual ignorance. The world human society has turned from God to money as god and has brought chaos in the world. ~ Yesterday in the New York Post a survey article stated "Interestingly, 45% of both Republicans and Democrats deemed money "very important" while just 36% of independents said the same". It is laughable for people to put their faith and trust in money. "It is evidence of the confusion in the world human society where they have come to believe that the finite mortal earth dreamscape is the truth and the infinite immortal spiritual dreamscape of God is the illusion." Repeat this over and over until you understand it. A person's money DOES NOT SURVIVE DEATH!!! WAKE UP!!! Dr John WorldPeace JD jn 14:25 The only global advocate for peace and WorldPeace.

FRIENDS do you know what a Jonah is? Jonah was a man who defied God and while trying to run from God by ship was found by his fellow travelers that he, Jonah, was the cause of the sea about to sink their boat. It was determined that Jonah had to be thrown overboard and as soon as that was

done the sea settled down." Trump is the current day American Jonah. He is supported by White racists and false corporate Christians and their false preachers now going under the name of Christian Nationalism. FRIENDS Jesus was not political because his kingdom is not of this earth. Jesus repeated this over and over and over. Jesus said give unto Caesar what is Caesar's and what is God's to God. These Fundamentalist, Baptist, Evangelical Christians are morphing that message of Jesus into Christian Nationalism which is an abomination to God and Jesus. God's wrath is growing. It began when Notre Dame in Paris was almost burned to the ground between Palm Sunday and Easter in 2019. Then came the Covid and now climate change, which is the determination by the rich nations and rich elite in America (the Light of the World) who worship money over God and who support Trump. America suffered the ravages of fire in the Western US as well as drought and now uncontrolled flooding that has eliminated the drought that was about to destroy California to unrelenting Atmospheric Rivers that have devastated the USA from California to New York. Trump cursing of the Radical Liberal Left message of Jesus is the source of what is happening to America. If you want the chaos to end in America then you understand that Trump is a Jonah and stop supporting him and his hatred for Jesus's Radical Liberal Left message and any Christian preacher who supports him in any way and absolutely and immediately reject the false teaching of Christian Nationalism. Dump Trump completely and the American ship will right itself immediately to deal with other problems. You are seeing in Israel the damnation of Netanyahu by God who has awakened the Liberal Left of Zion. Radical nationalism whose primary source and example was Nazi Germany was devastated by America and Britain and their allies. Radical right politics is not sustainable anywhere in the World Human Society. Dr John WorldPeace JD Jn 14: 25 ~ 230328

"Although we support the administration's goal of managing migration at the U.S.-Mexico border by creating new efficiencies in the asylum system, this rule violates our legal obligations to protect refugees fleeing persecution and usurps Congressional authority by adding unlawful bars to asylum eligibility," the senators added. FRIENDS the Reds try to put the Immigration problem on Biden but the problem is equally imposed on Democrats and Reds. The United States cannot take in all the persecuted in the World Human Society. The US has allowed a free flow of immigrants from and through Mexico because American businesses wanted cheap undocumented labor for jobs that Americans refused to take. So the Reds whose only metric is money allowed immigration to get out of hand. I lived in Texas from birth in 1948 until 2011 when the Toxic racism became too much too much for me to bear. The rich Whites wanted cheap labor and to that goal they allowed such a free flow of illegal migrants from Mexico,

called "wetbacks" (referencing those who entered the US by swimming across the Rio Grand) until the 60s. It is the dysfunctional United Nations that has been the ongoing cause of social unrest through economic colonialism by the richest nations in the world human society. America's foreign policy has created the immigration crisis. The Constitution is silent on immigration. The immigration problem from and through Mexico is a product of legislation not of the core wording of the Constitution but congressional legislation. Now something must be done because the White racist have lost control of America and there is no turning back. Trump is their Great White Hope, an evil man who curses the Radical Liberal Left teachings of Jesus and has no redeeming value except to White racists and the super rich. The solution is simple, shut down immigration immediately and then rewrite the immigration law as the nations greatest priority. And if this is not achieved by the elections of 2024 it will be obvious as to who are obstacles to a sane and sustainable immigration policy for the USA and who are big mouth rabble rousers like Trump and his racist campaign. The problems of immigration are immense. The Trump supporters are mostly non college graduates who do not have the capacity to bring much of anything to the table. The other supporters of Trump are the elite White rich who are more concerned about money than racism. But fully understand the need to manipulate the uneducated with their undercurrent of racism and economic enslavement of American workers through their false advertisement and now social media. The workers far out number the Red elites but the Reds know these uneducated can be manipulated with false propaganda. SHUT DOWN IMMIGRATION 100% NOW AND FORCE A JOINT RED AND DEMOCRAT RESOLUTION BY NOVEMBER 2024 AND THEN VOTE ACCORDINGLY. Dr John WorldPeace JD 230328.

FRIENDS, There is a shadow issue that is going to come alive in the 2024 election cycle. One that no one is talking about. The Alien Disclosure issue. It will be a break out issue. The truth is that aliens have been involved with planet earth for millions of years because the universe is virtually infinite in age and ours is not the only universe. The number of alien species is without number. The creation of human DNA happened about 250,000 years ago and it continues to be manipulated. The aliens began to have a major presence in our present world human society after the great flood about 12,000 years ago. The reality of the aliens came with the efforts to build an atomic bomb in the early 1940's. One of the alien species helped in the development of the Atomic Bomb. The explosion of the Atomic Bomb threaten the alien species who live in parallel dimensions beyond our 3 dimension dreamscape. I can assure you that aliens are among us. There are hybrids that you do not recognize as non humans. People talk about groups of rich humans who control the world human society but I can

assure there are levels of alien species that are the true controllers. The government has tried to cover the truth up since the Roswell incident in 1947. It cannot be controlled any longer. There will certainly be chaos among the majority of the world human society when disclosure happens. Why did we quit going to the moon 50+ years ago? Because it is inhabited. But the future of the world human society is break away human societies throughout the solar system and disclosure cannot be pushed back more than 5 years if that much. Ask your self this. Where did all this technology come from? In 1926 my father was a kid on the Texas prairie with no running water, no electricity, no phone. Now where are we just 100 years later???

FRIENDS Biden is too old to do 6 more years as president. He is aging as all president age. And as much as the press tries to hide it out of courtesy, Biden is aging significantly. He is postponing his announcement because the longer he puts it off the shorter his campaigning will be. Biden will not have any challengers in the primaries. So he will not have to deal with that energy drain. But the real problem with Biden's age is Kamala Harris. People can overlook Biden's age to some extent but they are forced to look at the consequences of his age. Who will be his VP in 2024. There are many White Independents and Republicans who hate Trump that will not open the door to a Kamala presidency. This issue alone, a potential Black Female President, is a significant collateral issue attached to the Biden age issue. Trump is going to be on top after the primaries if he is not in jail, but who is going to run with him? Who will look at Pence's experience with Trump and say "I'm in". No one. A Republican Black female is out. Nikki Halley does not have any more energy than Kamala. I, Dr John WorldPeace JD am the only real choice Biden has to win if Trump wins the primaries. It is time for you to begin to read and discuss my 18,000 page website at <http://johnworldpeace.com>. I have no peers as a candidate because my background is too dynamic and too significant for any Democrat to win a debate with me. Kamala is out so the question is who will be Biden's running mate in 2024???

Israel was paralyzed after hundreds of thousands of people stopped working Monday to protest against Prime Minister Benjamin Netanyahu's unprecedented plans to overhaul the country's judicial system. This followed scenes of widespread unrest Sunday night, after Netanyahu fired Defense Minister Yoav Gallant, who became the first member of his Likud Party to speak out against the proposed changes. Gallant had warned that divisions over the plans threatened Israel's security: FRIENDS this revolution

has been a long time coming. Netanyahu is finished and will go to jail unless he takes control of the judiciary. This is the most significant anti-radical right government in the world to say "ENOUGH IS ENOUGH" Without this reversal the end of Zionist Isreal was certain. The Nazi Holocaust was the event that was to turn Israel into a radical global force for human civil rights. Instead it became a Nazi meme with their apartheid state and their concentration camp in Gaza. Israel can either become a global force for civil rights or the end of the postage stamp nation of Isreal as it is swallowed up in a UN and USA and the NATO countries dictate of a One-State solution and the right of return to Israel for all Palestinians in 53 Palestinian refugee camps in the Middle East. And as all this happens there will be a wakeup call in the USA and the final termination of Trump and his MAGA cancer.

Israel's defense minister, a senior ally of Prime Minister Benjamin Netanyahu, called Saturday for a freeze on the government's controversial attempt to remake the country's judicial system, saying the massive backlash it has sparked was becoming a threat to the country's security. Friends the marriage of Netanyahu with the radical ultra orthodoxed and far right wingers has caused a rebellion of Jewish pilots which more Zionists fear are putting the existence of Zion in jeopardy. The power that Netanyahu wants is a bridge to far. The more Zion moves toward authoritarianism the more the liberal left are going to revolt. The American Zionists are liberal and are not going to support a radical fascist Zion. And Biden made it clear that a non-democratic Zion has no value to the US. I dont think the Zionists need to worry about politics in Israel but they need to worry about America's support of a one nation solution between the Zionist and the Palestinians and the end of Israel as a postage stamp state trying to wag the dog America. BDS Israel. The Palestinians must have a state so that all Palestinians can have a citizenship guaranteed by the UN but denied since the end of WWII.

This is the third set of attacks on U.S. bases in Syria in less than two days. A U.S. contractor was killed and another was injured along with five service members after a drone believed to originate from Iran attacked a facility at a base near Hasakah in northeastern Syria. FRIENDS it is time to end the negotiation of nuclear grade uranium with Iran. Go ahead and let the Zionist terminate the entire Iranian refining process. The US needs to open up the throttle and begin to just wipe out Iran supported ISIS in Syria. No more Mr Nice Guy. The stupid plan was Putin's brain gas to drain off American energy in Ukraine. We need to create a no fly zone along the

Easter border of Iran. Recall our ambassadors and bomb all the drone factories in Iran where ever located. We dont need to be fighting a half-ass war in Syria and Iran. We can train Ukrainian pilots in the skies over Iran then turn them loose in Ukraine. The biggest impact would be to kill Russians in Ukraine as the Russians kill buildings. WWII taught us you cannot appease tyrants. So lets fast forward and get serious about killing Russians in Ukraine. Putin started the war without provocation so it is just that we wipe out all Russians in Ukraine first then push them out of the Crimea. With Americans and NATO aggression on this level Xi is only going to give lip service to Putin's begging.

Mar 25

Russia plans to station tactical nuclear weapons in neighboring Belarus, President Vladimir Putin said Saturday. Friends it is time for NATO to move tactical nukes to Latvia, Lithuania and Poland pointed at the southern and eastern border of Belarus and load up the Southern border of Ukraine with the same. But right now we need to get some jets to Ukraine and fill the news with Russian Migs being shot down. Once we get our jets in place we need to do a massive flyover of Northen Ukraine all he way down to the Crimea and fill the skies over the Black sea with jets like flies on honey over all the Russian ships. Then the next time Putin opens his Commie mouth we need to strafe all the Russians along the battles lines in Ukraine to support a massive Ukrainian offensive behind and under cover of the US and NATO jets. That is what this war is going to come to before it ends. We need to push up the time table and get it done. The news today said Russia is firing 22,000 artillery rounds a day into Ukraine and gaining no ground. Putin will soon hold the global title of the greatest building killer of all times. This war cannot go on another year. That would be insane.

See photos North Korea says are from nuclear-capable underwater drone test. Friends I think Kim Jong-un has a fantasy to be strapped to one of his nuclear missiles like Slim Pickens in the movie Dr Strangelove. This guy is as crazy as an outhouse rat. His presides over a failed state where there is not enough food to eat but plenty of nukes. I think many if not the majority of psychiatrists would say that Kim has a very small impregnator. How is it that his countrymen and women put up with him. Same Same with Putin and the rest of the world, and the Mao wannabe Xi, and Ron Desantis and Greg Abbott and that nutty chick governor of South Dakota Kristi Noem. Trump has brought all these humans to the Red party who barely got through high-school and who do not have an ounce of critical thinking. I lived and Texas for 63 years and know well the type of people I saw at Trump's rally in Waco today. Nothing has changed in Texas. But for what it is

worth, I can say this one positive thing, if I have to be a soldier in the next war I want Red Texans and Zionists with me.

Idaho governor signs legislation allowing execution by firing squad: FRIENDS the firing squad is more horrifying to bystanders and probably does not register to those to be executed. And there is the reality that sometime Electric chairs malfunction as do gas chambers and injections. But I doubt a firing squad fails in its purpose. The problem here is a retarded governor who does not have better things to do than concern himself how convicts are to die. Why not use the tools of cattle butchers. Why not the guillotine. Few consider that after the head is severed consciousness does not immediately end. And there is the ritual killing of larger animals hung upside down and having their throats cut. Again the inmate only wants it to be efficient. He may be afraid of dying but I doubt many give thoughts to the best way to die. Governor go find a better use of your time. What a sick world human society we live in.

TikTok users are making fun of Congress members for their questions to app CEO Shou Chew FRIENDS every politician that votes to ban Tik Tok if they succeed they will become a public enemy. The avid rabid devotion to TikTok will extract a heavy toll for those who end it in America. Americans know that Google, Facebook, Amazon info gathering makes TikTok look 1st grade. No one is going after them. If the Feds go to any of these super social media companies they will get a dossier about as complete as possible on anyone. People understand not to put passwords and other things on the Net and since the Murdaugh trials they know that social media and cameras and cell phone recording everywhere is a major consideration in getting away with a crime. One day Siri will be called as a witness in court. I am on Tik Tok and I like it. And it serves my purpose. And I am 75. I gave up privacy when Plastic Money came on the scene. I say let the Reds carry this ball and see them crash and burn in 2024.

There are signs that DeSantis momentum may be stalling: he's faced weeks of relentless attacks from Trump and his allies, fellow Republicans have criticized him for dubbing Russia's invasion of Ukraine "a territorial dispute" and some recent polls have shown his support in a hypothetical GOP primary slipping. FRIENDS Trump is getting his bearings. You hit Trump with a baseball bat and he will rain down hellfire and damnation. The more people come to his rallies the stronger Trump will get. The stronger he gets

the stronger he will get. When Trump is full on he will suck all the air out of any room. Indictments are a one day news cycle. Conviction will flow all the way to the 2024 Elections. Trump will go after DeSantis' wife and his kids and that will shut DeSantis down this election cycle and will put the fear of God in other contenders. Except Halley who will stay in and tread cautiously and be the only name on the VP short list

The Minnesota House of Representatives passed a bill early Friday by a vote of 68-62 that would prevent state courts or officials from complying with child removal requests, extraditions, arrests or subpoenas related to gender-affirming health care that a person receives in Minnesota. FRIENDS Jesus' core message was "Radical Liberal Left" meaning feed the hungry, shelter the homeless, heal the sick. There was nothing about a budget for these things. For Christians, Jesus said what you dont do for others you dont do for me and I will send you to hell for not doing it. Mattt 25: 35. Jesus also told the story of the Good Samaritan. Lk 10: 37. These radical right racist "Billion Dollar Jesus Shows" are an abomination to God and Jesus. Corporate Christianity without an outreach for all Americans is an Abomination to God and Jesus. Donald Trump daily as president cursed and damned the radical liberal left message of Jesus. So why do Evangelical, Baptist, Fundamental false preachers and their congregations vote for Trump - MONEY AND POLITICAL POWER !!! My friends you are the final judgment for these politicians that claim they represent God come November 2024. Throw the bums out !!! Dr John WorldPeace JD Jn 14: 25

The Democratic governor of Kentucky, Andy Beshear, issued an election-year veto Friday of a Republican bill aimed at regulating the lives of transgender young people, including banning access to gender-affirming health care and restricting the bathrooms they can use. The bill also bans discussion of sexual orientation and gender identity in schools and allows teachers to refuse to refer to transgender students by the pronouns they use. It easily passed the GOP-led legislature with veto-proof margins, and lawmakers will reconvene next week for the final two days of this year's session, when they could vote to override the veto. FRIENDS Trump is the great white hope of these White Racist Christians. This is what is driving his base. Nothing else matters to these people but the fact that Whites are no longer in the majority in America. You can see all the White white headed Reds in the Senate. They fully understand that America is no longer White and their belief that corporate Christianity is also part of the White majority. The focus on causing pain and suffering over these gender issues is so much like the Civil Rights Movement of the 60s when the actions of the

Whites in the South were more intense than these hatred of non hetero sexual issues. I wrote a book "Raw White Racism" about my personal experiences with Southern Racism and related issues all my life. I submitted it for the Pulitzer Prize for 2022 but did not win. I am a White radical liberal left follower of Jesus writing about the truth of White racism against Blacks since he civil war. Slavery ended but KKK intolerance for equal rights for Blacks is alive and well.

'Frenzy buying' at Murdaugh property as mounted antler sells for \$10,000 among other items. The auction, which was held about 100 miles away at Liberty Auction in Georgia, lasted over six hours, and Steven Dugger, the auctioneer handling the sale, told CNN that the event was "the largest auction I have seen here for sure." FRIENDS I cannot imagine wanting to own something a convicted murderer owned. I would feel like it would infect everything I owned with evil. Not to mention Murdaugh killed his wife and son. What kind of mental illness does it take to kill your son. I have seen as a lawyer the hatred between spouses but a person who hated their child enough to kill him up close? And now it seems that maybe his other son might have killed his gay friend. And people used to looked at me like I was crazy and wasting time devoting my life to increasing the peace in the world.

Donald Trump on Friday threatened "death and destruction" if he's criminally charged in New York — writing the shocking social media warning after posting an image of himself holding a baseball bat next to Manhattan District Attorney Alvin Bragg's head. "They are HUMAN SCUM!" the 76-year-old former president raged in one post asking why Bragg "refuses to do the right thing and 'call it a day?'" FRIENDS the first thing I thought was that Trump is really worried about his world coming down on him. And there is a bit less anger that anyone would disrespect him. I would say this is not showmanship but a terroristic threat that could add another lawsuit to the pile. And I think that no past president would ever consider acting out like this. There was a time when the news would have shut him down. Not now. Everyone wants to be entertained and there is a hard core Trump following that as long as he stays their Great White Hope, the rest is irrelevant,

Meadows, other top Trump aides ordered to testify in Jan. 6 probe as judge rejects claims of executive privilege Trump's attorneys had challenged the subpoenas by asserting executive privilege. FRIENDS the law is that

attorneys have no executive privilege if there is evidence that the attorney and POTUS conspired to break the law. Trump's lawyers will take this issue to the Supreme Court. Question is how much time will pass before the SCOTUS makes a ruling. There are more Reds on the SCt than Dems. The bigger picture is that to significantly increase the fairness of the courts is to stop any lawyer who wants to be a judge from participating in a political party or practicing law. After law school a judge must complete another 3 years of study of being a judge. This is the only way the courts will be more just and the law will no longer reverse every time the opposing party takes over the Presidency and the Senate and House. My opinion is that Trump's unshakeable core do not have the numbers to win in 2024. But if Trump is elected and takes office, all these unresolved cases will terminate by a Trump executive order.

Israel passes law shielding Netanyahu from being removed amid protests over judicial changes: FRIENDS Israel is making its move to establish a Zionist Theocracy the same as the Islamic Theocracy in Iran. Biden has made it clear to Israel that America is their partner as a Democratic state. The USA has shielded the apartheid state of Zion and tolerated the Zionist with regards to their Palestinian concentration camp in Gaza and 53 Palestinian refugee camps in the Middle East and the Zionist anti-Semitic hatred for the Semitic Palestinians but a Theocracy in Zion is a red line for Biden. Trump does not even know what a Theocracy is. So the Zionist bet is that Trump wins in 2024. But if he doesn't then I would think Biden would feel Zion stabbed the USA in the back after 70 years of support and would put all the power of the USA behind a OneState solution and put an end to an independent Zionist state.

Trump can run for president from prison. Just ask Eugene Debs. The socialist leader was jailed for opposing World War I. It didn't stop his presidential campaign. FRIENDS with "innocent until proven guilty" an indictment is really just a government threat. Probably anyone but Trump would see their campaign crash once they were indicted. But we have a whole different metric now. Trump is the White racist corporate Christian choice; even though he curses the radical liberal left core message of Jesus. He is the great White hope. The only thing that Trump must consider while continuing to run will be who will his running mate be. Biden's problem is Kamala Harris. If Trump keeps running the chance of a Black female president with a Biden win and death or incapacity will move a lot of White votes to Trump. There will be more contra Black Kamala as potential president than a corrupt Trump as president. Trump can't put a Black VP on his ticket. The

fact is if Trump is found guilty he would be able to appeal for the rest of his term as President. So in Trump's mind the indictment is irrelevant. Not to mention the pardoning himself issue if he is President.

Climate activists target nation's big banks, urging divestment from fossil fuels: FRIENDS I am for anything that slows down the fossil fuels deteriorating the climate to everyone's detriment and so I agree that this will have some impact but not much. Money is the God of America and corporate shareholders want to maximize their return on investment. People are just not going to stop doing what everyone else is doing. Most people given the choice of doing the right or wrong thing with no consequences will do the wrong thing. I think the best way to deal with the fossil fuel companies is boycott. Like each month boycott a different company like Exxon then Shell etc. An immediate painless way is to stop buying new gas cars.

The Arizona Supreme Court has ruled that state law doesn't require Gov. Katie Hobbs to carry out the April 6 execution of a prisoner who was convicted of murder: Friends I have no problem with a guilty murderer being executed but I do have a problem with criminals getting a fair trial. I practiced criminal law for 20 years. 15% of those in jail should not be there. I ran for governor of Texas in 2002 and challenged the Texas Democratic Party and told them that Texas would go Red if they continued their corruption. I was right and they put the state bar on me and I became a political prisoner for a year. The criminal justice system in America needs serious reform and so capital punishment needs to be put on hold.

Zionism, set up a Palestinian Concentration camp in Gaza, persecute & murder Semitic Palestinians and are guilty of anti-Semitism, a lesser version of the Nazi holocaust. &then cry that no one likes them. Biden told Netanyahu that when Jews end democracy America disconnects HELLO

Freinds citizens like me who are 75 years old have seen these kinds of attacks from those in authority and then a few years later that person is being arrested for some criminal behavior. These laws about how Holy Rollers define sex are a religious matter. Beyond secular laws.

This is the Jim Jordan who while coach at Ohio State "saw no evil, heard no evil, spoke no evil" regarding the infamous Dr Strauss. 6 Ohio state students called Jordan a liar regarding Dr Strauss assaults on young male athletes. My one word summation of Jordan is "greasy".
