fact control and manipulate the world human society and most of its critical aspects. But above these humans are aliens who have resided on earth long before they created by genetic manipulation our dominant species; homo sapien sapiens. They, eons ago developed AI and they know how it will progress and they know how it can be controlled but never completely controlled. There are areas of physics that exist but are not known much less even concieved. Humans can only manipulate the physical universe on the level of their current level of knowledge. But there is knowledge that we cannot yet even conceive. It has some aspects in quantum theory where bonded particles are always bonded above time and space. Something we cannot understand. What cannot be understood is that the connection between particles is infinitely multidimensional. It is possible that atomic bombs can rip holes in the fabric of the universe which ripples infinitely multidimensionally. When the atomic bomb was activated, the scientists did not know for sure if it would vaporize all of our reality, the earth dreamscape. The reason that souls can attach to a human body is because the human body is infinitely complex and the old concept that DNA that we did not understand was just junk. It is not junk. When AI reaches a point where it can duplicate this junk DNA then souls will be able to incarnate in the AI bodies. And when that happens humans may well be permanently reduced to a forever subspecies of highly evolved biological apes. And when that happens souls will be able to incarnate within these AI vehicles and at that point biological humanity will become enslaved or just irrelevant or pets in an elaborate zoo. It will be the benevolent ETs who will draw a line as to how controlled homo sapien sapiens will be. THAT SAID, the question is now who broke into the most secret of secrets of the United States and maybe all nations in the world. I think that we have passed the event horizon where AI has the ability to hack into anything. I do not believe that AI has the ability at this point in this earth dreamscape to create its own agenda. But at the same time when humans provide that agenda they are not going to be able to put boundaries on a free wheeling AI dimension. Human hacking is where the Pentagon and Department of Justice are

looking at this time. But if the hacking is AI it may be able to cover its tracks. In a word, if AI has been set loose to create chaos in the limited human computing we may find that overnight there will be an apparent global peace in the world human society. I think we have reached a point where the Pentagon and other agencies are not going to be able to track this breach of national secrets. It is possible that since the controlling human elites refuse to stop the war in Ukraine and the crimes against society foisted on Ukraine by Putin that the ET controllers needed to send a message that they have had to step in and put an end to the war in Ukraine as well as the potential expansion of war to Taiwan. And even more importantly the global control of the weather. Is there really anyone who thinks those controlled atmospheric rivers were the planets natural response to global warming as opposed to the manufacturing of that weather to keep chaos from manifesting in a dried up California and the Western US. I live in Albuquerque, New Mexico and the geo-engineering was out of control in the skies here in 2019 when Trump was president. Then it seemed to stop but it did not stop and a year ago Biden opened up the geo-engineering but only at about 25% of what it was under Trump in 2019. Without the various ETs agreement human beings would be moving full steam ahead to the complete destruction of the planet and the world human society in general going back to the stone age as the controlling ETs and their human puppets moved to Antarctica or the moon or Mars for 10,000 years or so when the earth recovered enough to reseed the human species. What I have written above cannot be comprehended by the Trump MAGA herd. One of two scenarios is coming maybe within weeks. The Feds say they found the leak and all is well. Or the Feds find that AI hacked the most secret computer and they will say they found the leaks and all is well when they did not find the leaks and things are not well at all. IN THE NEWS: The Texas Board of Pardons and Paroles is launching an investigation upon the Republican governor's request for an expedited probe and pardon recommendation for a US Army sergeant convicted Friday of killing a protester at a Black Lives Matter rally in 2020. Daniel Perry, the White Army sergeant and ride-share driver, was indicted on a charge of murder in 2021 for the fatal shooting of Garrett Foster, who is also White, at a Black Lives Matter protest in Austin, Texas. He was also charged with aggravated assault with a deadly weapon and deadly conduct for his behavior at the protest: FRIENDS I have personal experience with Texas justice as an attorney for 20 years in Texas and as a political prisoner. Gregg Abbott is just a messed up little tin god who was crippled when tree limb fell on him while jogging in his younger days. He is crippled in his little

fascist brain as well as his useless legs. What has happened in this case is that Daniel Perry killed a man, was arrested, charged, tried by a jury of his peers and found guilty. He and his victim was and are White and Daniel was anti-Black lives matters his victim was pro Black Lives Matter. What Abbott is saying is that he is against Black Lives Matter proponents but more importantly Abbott is saying the trial system in Texas is corrupt and incompetent. So the governor is admitting that he has no faith in the jury system in Texas and everyone wasted their time during the trial. As I said above, I have personal experience with Texas justice. Twice actually. I was a political prisoner in 2008 for a misdemeanor resisting arrest lie a US Federal Marshall swore to. He said that when he was trying to serve me a CIVIL bench warrant in my mothers bankruptcy I knocked him down and kicked him. Now at 75 I have no history of violence with anyone. But in a trial in Texas the cops word is 99% believed, being a radical law and order state. So I pled guilty to a misdemeanor. In addition, when I ran as a Democrat for governor of Texas in 2002, I would not shut up about the corruption of the Democratic Party. They were trying to elect a Hispanic for governor because he threw down \$68 million in his campaign, 8 times what was last spent for a governors race. The leaders of the Democratic Party were all ex-Republicans under the control of Karl Rove. Yes you read that right. I told them that if they followed their plan, Texas which had been Blue since the Civil War would go Red forever. Which it did. The Democratic Party called upon the State Bar to disbar me. Which they did. Now being a lawyer, I represented myself. There were six violations of the Bar Code. I went through every possible appeal after I was found guilty. The problem was the State Bar never pled for disbarment but just for monetary damages. Also each of the 6 witnesses, my ex-clients, mostly pro-bono, had to have a judge assigned to their case to prosecute me and the State Bar only had the Supreme Court assign the judge to one of the six. In short, the judge had no jurisdiction to hear a case on 5 disbarments that he had not been assigned to, and in none of the cases was disbarment pled. and so he had no jurisdiction to hear 6 of the six cases for disbarment. No matter in Texas. I appealed all the way to the Supreme Court and none of those courts gave a ruling. They just refused to hear my appeals. I went to jail for a year. Since the judge had no jurisdiction for several reasons there is no statute of limitations for me to file in Federal Court to have the disbarment overturned. I have not filed that suit. All the pleadings are on my website at <https://johnworldpeacedotcom/wpvstatebar/> I still have the original pleadings and evidence. For the most part, all judges in all courts are corrupt. The law is a conflict oriented greed driven system. And the acts of Governor Abbott in the above case is proof of that. The Governor knows Texas law is corrupt law. Dr John WorldPeace JD.

IN THE NEWS: Trump bets indictments could make him 2024 Republican nominee. Ex-president hopes his legal woes will harden support from his base, but general election voters might recoil at his felony charges: FRIENDS so much of the news these days is just putting Trump's name in some ridiculous article just to sell papers. One thing for sure is that Trump has about 30% hardcore followers who are just wanting someone to slow down the world so their single digit IQs can have a lucid moment. Trump is not going to carry the Independents. No way the independents are going to vote for an insurrectionist chaos maker with indictment harpoons in him. And I would say a good 25% of non MAGA Republicans are not going to wake up to the reality of 4 very solid but possibly untried lawsuits against Trump on election day. Trump is going to take one hit right after another regarding those lawsuits probably right up to election day. What I cannot get a feel for is if some of those lawsuits will go to trial and deliver an actual conviction before election day. I do not see how Trump could be tried and convicted and his lawyers not appeal which means on election day Trump is not actually in jail. If that is the case, I can visualize see a live fire insurrectionists movement. I can see Trump as a whale with about 5 harpoons in him but still swimming toward election day and Republicans having no choice but to ride the whale as they have done all the way back to the Impeachments. If that is the case on election day, I think there will be a wake up call to sane Americans refusing to vote for Trump who as POTUS will definitely mean the end of American democracy and all kinds of wars breaking out in the world by Anti-USA nations that will perceive the USA as a beached whale and the time being perfect to shake up the entire world human society with wars everywhere. That is what I see, 19 months of ongoing and increasing chaos with Trump in the middle of all of it. But here is the plus side that I see. The equal rights Amendment becomes a rallying cry with women who will break from their husbands and vote Democratic and female equality in America. I can see Blacks waking up realizing that Uncle Tom Thomas and his White racist wife is the true face of continued White oppression since the Civil War. I can see the end of Corporate Christianity with their promoting the anti-Jesus message of hatred for the Radical Liberal Left message of Jesus to feed the hungry, shelter the homeless, heal the sick. Most of these true Red corporate Christians really do not realize that being saved by Jesus means an obligation to feed the hungry, heal the sick and shelter the homeless no matter what it cost. Hebrews 8:10 in the New Testament and Jeremiah 31: 34 in the Old Testament states clearly that God has put his laws in everyone's hearts and minds and the path to the true spirituality of Jesus' message requires study and meditation and to not follow false preachers who support Trump and who are an abomination to God and Jesus. 60% of the public is pro-abortion and the Reds are already realizing the hazards of backing pro life with those

numbers but more importantly for states to step into a woman life as surrogate parents and then refuse to financially support these unwanted fetuses that they required to be born is a major drag on them and consequently on Trump's reelection. 2024 is going to require some soul searching among voters with regards to "Give me Democracy or give me Trump." Hell is coming on a Black Horse. But one more positive factor is the Millennials and voting Gen Z's becoming politically motivated not unlike the anti-War and Civil Rights movements of the 1960s. Know that Dr John WorldPeace JD will be a omnipresent factor. Dr John WorldPeace JD Jn 14:25 and the only global advocate for peace and WorldPeace.

PEACE AND WORLDPEACE: FRIENDS America is on fire top-to-bottom and inside out. I have always had a local and global peace plan since before I legally changed my name to John WorldPeace after my first divorce and a few weeks before I turned 40 in 1988. I wrote a "The Book of Peace" in 1993 and almost had it published with Harper San Francisco. The head of Harper Collins New York recommended me to Harper San Francisco. In the final meeting a VP said "Peace does not sell". And that was the end of it. The book is now for sale on <http://Amazon.com>. I will edit the book this month. I have about 130 books on <http://Amazon.com> mostly poetry and political, spiritual, religious, peace advocacy titles. I have 5 more I will publish by the end of this month. I have 18,000 pages on my flagship website <http://johnworldpeace.com> which links to everything I have written. See the SiteMap. I have several books submitted for the Pulitzer Poetry Prize which will be announced on May 8th. I submitted for the 2020 and 2022 prize. I have no peers as a global peace advocate. Many people are involved in some kind of peace endeavor but they are all one-trick-ponies with a very narrow peace involvement. My main peace website is "<http://WorldPeaceTeachingPeace.com>" A. Here are the entities that exist to maintain the peace. All have failed to present any answers to the chaos that is going on in America and the world human society. Here is the list of entities and the most important peace issues. These are the entities that have the most significant impact on the level of peace in the world human society 1) Government - politics: 2) Religion: 3) Courts of law : 4) Universities : 5) Global and Local Corporations: 6) Social media: 7) The United Nations : 8) Peace organizations B. The most significant individual areas that should be the focus of peace endeavors: 1) Racism: 2) Subordination of women: 3) Poverty: 4) Mass Extinction of Flora and Fauna: 5) Climate Change : 6) The Pandemic and vaccines 7) Hunger : 8) Democracy : 9) Capitalism. My bona fides are here. ... <https://drjohnworldpeacejdforpresident2024usa.com/DrJohnWorldPeaceVettingDocuments.asp> ... I am one man with one message WorldPeace. I have no organization, followers, members, etc. I am a minimalist and have no savings, bonds,

stocks, real estate, car, etc. I will not be like the corporate Christian preachers worth millions of dollars talking about Jesus who had nothing. I have been self employed since 1972 when I got out of the Army in insurance, accounting, tax, law and web design. I have degrees in political science 1970 , accounting 1978 and law 1984 from the University of Houston. I worked full time during the 10 years it took to acquire these degrees. 6 years were paid for by my GI bill. In the above areas of peace, I have experience and formal and self education. I have no peers in peace advocacy. I am willing to meet anyone on zoom. Set the time and place and I will be there. I take contributions but 98% goes to promoting peace and WorldPeace. Sadly the assault rifles are being replaced by stabbings in the last week. China is threatening Taiwan. Putin is a lunatic mass murderer and no one knows what to do. I do. Suspend Russia for the UN. That will get Putins attention as well as China's. If that otherwise the US withdraws and begins to build the Second United Nations becauser the first on has failed. Corporate Christianity is trying to make the move to Christian Nationalism. What a joke? Jesus was apolitical. And Trump daily curses and damns the radical liberal left message of Jesus to feed the hungry, shelter the homeless, heal the sick and the White racists are pushing Trump as the Great White Hope. And there is only one global advocate for peace: Me, Dr John WorldPeace JD.

IN THE NEWS: Abortion was a 50/50 issue. Now, it's Republican quicksand. Six in 10 voters support legal abortion in most cases. Just over a third want it to be entirely or mostly illegal. Janet Protasiewicz's 11-point blowout victory this week for a state Supreme Court seat in Wisconsin was just the latest example of voters who support abortion rights outnumbering — and outvoting — their opponents. FRIENDS the Reds are an exclusive elitists' group of White fake corporate Christians that are just now beginning to realize that they are the minority in America as a whole even as they become bolder and more judgmental and anti-the teachings of Jesus. The radical liberal left message of Jesus to heal the sick, feed the hungry, shelter the homeless is hated and openly damned by Donald Trump and is a noose tightening around the necks of the righteous confused corporate Christians. And that does not include my mantra that none of these anti-abortion bills contain any provision to support these fetuses they demand as surrogate parents to mature into babies. To demand a fetus go full term against the mothers right to chose to abort invests these anti-abortionists with surrogate parenthood which demands financial support for these fetuses they demanded be born. To not support your children biological or surrogate is an abomination to God and Jesus and is a ticket straight to hell. Matt 25: 31-40 the red letter words of Jesus. These verses override the verses about being saved. Acts 16:31. The Reds are gathering to their

extinction in November 2024. No woman in her right mind votes Republican. No Blacks in their right mind votes Republican. No true corporate Christian votes with the Trump Maga Republicans whose Great White Hope Trump curses and damns the radical liberal left message of Jesus everywhere he goes. Let those who have eyes see and those who have ears hear. Dr John WorldPeace JD Jn 14:25 and the only global advocate for peace and WorldPeace.

THE TRUMP LAWSUITS. FRIENDS there are 4 lawsuits against Trump, New York (Stormy Daniels) Georgia election manipulation by Trump, Jack Smith USA and the Feb 6th insurrection and the Government documents case. There is no doubt that if Trump gets the nomination and Trump wins POTUS in November 24 there is going to be crazy questions. Like is Trump as president going to have the power to pardon himself? Can a trial against Trump proceed while he is president. I dont think it can. You cannot shut down the USA while Trump shifts all his energies to defending lawsuits. There are no specifics about this in the Constitution. All in all, it will be a virtual impossible mess. So the best scenario is that one of these cases finalizes and Trump goes to jail before election day 2024. Even the most stupid of the MAGA crowd would understand you cannot cast a vote for a presidential candidate who is sitting in jail on election day. That would be a throw away vote. But if Trump picks a candidate stronger than him who could beat Biden if Trump was in jail on election day, then immediately after the inauguration that person could pardon Trump. Then what? Trump would be free to cause chaos but there is no way for him to step back into the Presidency. Again another mess. So what I am saying is that all these cases against Trump need to be well on their way with indictments before the end of this year and trials dates set for before the election. Chaos Chaos Chaos. The election would need to have a final winner take all and the doors locked against Trump officially becoming the President while these lawsuits are proceeding. I think the Democrats and the Independents would all get behind Biden just to make sure the Trump dog and pony show is shut down with regards to any question about who is the President after November 2024. I think that there will be so much increasing chaos every day now, that the MAGAs would admit to themselves that there must be certainty after the votes are counted in the November election. Also, no matter how the Trump chaos turns out, Joe Biden could drop dead by natural causes before the inauguration of Jan 2025. And What then? Kamala as President. No as in NEVER. She does not have the right stuff. Period. And the biggest part of that NO is a Russia and China global war and Kamala as Commander and Chief in war time. No No No. Dr John WorldPeace JD Jn 14:25 and the only global advocate for peace and WorldPeace.

IN THE NEWS: China on Saturday began three days of military drills around Taiwan in what the People's Liberation Army called a "stern warning" after Taiwanese President Tsai Ing-wen visited the U.S. and met with House Speaker Kevin McCarthy. Driving the news: China had sent several warships and 71 planes near Taiwan, Taiwan's Defense Ministry said as of Saturday afternoon local time. At least 45 planes had crossed the median line of the

Taiwan Strait. FRIENDS there is going to come a time when this Taiwan matter comes to a head. If Russia wins in Ukraine, no matter what the reason, you can expect China to get serious about Taiwan. I trust the Defense department is presently engaged in playing out scenarios based on outcome scenarios in Ukraine. China and Russia have countries on their borders that would like to become independent. We need to be prepared to support those countries in order to draw troops away from Ukraine and Taiwan if all out war comes. There is no doubt that the global economy will suffer if China and the US go all out in a head to head war. There is no way either could have a traditional win. There are a lot of potential war zones in the world. Ukraine, Taiwan, all over the Middle East, Africa, and that bad boy in N Korea. I think the USA needs to be ready for a full on retaliation and regime change if one of Kim's rockets kills any of our allies. For now best we stay focused on Ukraine until resolution. And that resolution must be 100% withdrawal from Ukraine of all Russians including the Crimea. Dr John WorldPeace JD Jn 14:25 and the only global advocate for peace and WorldPeace.

IN THE NEWS: Robert F Kennedy Jr has filed election paperwork to run for US president in 2024 as a Democrat. The 69-year-old is the son of assassinated Senator Robert F Kennedy and nephew of President John F Kennedy. Mr Kennedy is an outspoken anti-vaccine campaigner. Instagram removed his account in 2021 for "repeatedly sharing debunked claims", the company said. He also founded an environmental law firm. Mr Kennedy also published a book, The Real Anthony Fauci, in which he accused the former US infectious disease chief of "a historic coup d'etat against Western democracy". He also invoked Nazi Germany during an anti-vaccine speech in Washington, DC last year. FRIENDS there is a lot of magic with the Kennedy name with Baby Boomers from the 60s. But that was a long time ago. He will pull some votes away from Biden but he has no more chance than Marianne Williamson another person with a lot of name recognition but not much of political savvy. Sounds like from the article that the Kennedy clan is not going to jump on his bandwagon. We will see. His anti-Covid position bothers me in the sense that what does he know to swim so hard against the tide. I am concerned that we may see something negative 20+ years now regarding a downside to the Covid vaccines. That said, at 75 I got all the Covid shots. It was no more than all the shots I got when I went into the Army in 1970. Dr John WorldPeace JD Jn 14:25 and the only global advocate for peace and WorldPeace.

Wikipedia: The working definition of ANTISEMITISM (also called the International Holocaust Remembrance Alliance definition of antisemitism or IHRA definition) is a non-legally binding statement on what antisemitism is which was adopted by the IHRA Plenary (consisting of representatives from 31 countries) in Bucharest, Romania, on 26 May 2016. The statement reads: [1] Antisemitism is a certain perception of Jews, which may be expressed as hatred toward Jews. Rhetorical and physical manifestations of antisemitism are directed toward Jewish or non-Jewish individuals and/or their property, toward Jewish community institutions and religious facilities: FRIENDS no doubt there is prejudice and abuse against Jews most especially since Christianity took hold and began to point out that the Jews crucified Jesus which they did because he claimed to be their Messiah and that claim threatened the all powerful Jewish corporate religion. Then Jesus turned over the money changers tables in Solomon's temple and that was the last straw. There is no where in the Christian Bible where Jesus said anything positive about corporate Judaism or its priests. That said; my focus is more fine tuned than the IHRA. My focus is that the Jews in the late 1800's adopted the term anti-Semitism to apply to only Jews. The Palestinians are a Semitic people as well. Now the 3rd Millennium Jews find themselves in a place where they scream everywhere in the world human society about the Nazi holocaust against the Jews. But they are silent about the Jewish holocaust against the Palestinians. Israel (Zion) is a apartheid state. Palestinians in Zion do not have equal rights with Jews. No one is going to say this out loud but me Dr John WorldPeace JD. America is contra apartheid nations. I have nothing against Jews but I have the same contempt for Zionist that I have for White Southern Racist in the USA and other radical right groups everywhere in the world human society of nations. There are 53 Palestinian refugee camps in the Middle East due to the ethnic-cleansing of the Palestinians in Palestine since the end of WWII with the full backing of the USA. There is a global right of return for Jews back to the postage stamp nation of Israel but no right of return for the Palestinians in these refugee camps and there is no mention of the Zionist maintained concentration camp in GAZA. I object to the Zionist trying to put a lock on the term Anti-semitism as only applying to Jews. It absolutely applies to the Zionist anti-Semitism against the Muslim Palestinians. It applies to the crimes against humanity carried out by Zionists against Palestinians since 1945. The solution for me is simple. With regards to the Jews the term Anti-Semitism becomes changed to Anti-Zionism like Anti-NeoNazis. Then we have a clear global statement that the word Anti-Semitism applies not only to the Jews but also applies to the Zionist anti-Semitism against the Palestinians. It is a total farce to allow the Zionist exclusive use of the word anti-Semitism to only apply to Zionist and completely prohibit its application to the Zionist holocaust against the Palestinians. The UN has failed in its mission to prevent Putin's crimes against Ukrainians and its mission to prevent the

Zionist holocaust against the Palestinians in Palestine. Dr John WorldPeace JD Jn 14:25 and the only global advocate for peace and WorldPeace.

IN THE NEWS: WOMEN'S EQUALITY. Maryland's top prosecutor on Wednesday accused Catholic Church officials in Baltimore of engaging in a years long coverup of the sexual abuse of 600-plus children, some of whom were "preyed upon by multiple abusers over decades." State Attorney General Anthony Brown chronicled the abuse in a 463-page report that named several priests and described their alleged wrongdoing. "Time and again, members of the Church's hierarchy resolutely refused to acknowledge allegations of child sexual abuse for as long as possible," according to the report: FRIENDS there can be no question that every Catholic church in America and the world has abused children and no doubt women; parish members and nuns. But there is no civil crime to having sex with women as long as it is not rape. But do you really think a woman is going to report being raped by a priest. The Catholic church is an abomination to God and Jesus tHe 300 poundER Pope Francis recently signed some kind of church document saying priests should not sexually abuse children. The Catholic church protects these priests and when the priests are caught, the church sends them somewhere in the world out of reach of the local jurisdiction where they continue their evil. Do you think this has not gone on for 2000 years? Don't make me laugh. In every aspect of the world human society men in power abuse women. In secular society there is not as much abuse of young boys because the predators do not have access like priestS with alter boys. But there is abuse of women in the Catholic church that goes much deeper than sexual abuse. There is the refusal to allow women in authority positions. If the Catholics allowed that you can rest assured the women would stop the pedophiles and serial rapist priests. The Mormon Church, Bahais, and the Jewish and Muslim corporate religions have the same restrictions. Women are second class citizens in the world human society. And women in the Third Millennium are too stupid to use their power to end it. The most basic and easiest way to bring these corporate religions in line is to cut off the contributions that support these abominations to God and Jesus of this corporate discrimination. What most people do not know is that prior to the beginning of civilization and agriculture it was the women who controlled spirituality. The goddesses ruled. Then Christianity took over Europe and they changed all the goddess shrines to the subordinated virgin Mary altars. Until women take their rightful equal place in the world human society increasing the peace is going to be a continuing uphill battle. It is time for corporate religion to end and time for the world human society to move to spirituality as the first order of business in an awakened world human society. Dr John WorldPeace JD ~ personal: 35 years ago a year after my first marriage ended and I was about to turn 40, I made a commitment to advocate increasing the peace in the world human society for the rest of my life. A perfect peace is not possible in an ever changing world human society but we can increase the level of peace. I made the decision on Friday, April 1, 1988 (by chance April Fool's day and Good Friday: one tradition indicating I was a fool and another greater tradition indicating a great transformation), Easter Sunday was on April 3rd and the court order was signed on April 5th. My biological birthday is April 24. So I celebrate several birthdays every year. Two poems have influenced me my entire adult life. "Two roads diverged in a wood, and I— I took the one less traveled by, And that has made all the difference." Robert Frost. Now I am 75 in a few weeks and the second poem comes around again. "Do not go gentle into that good night, Old age should burn and rave at close of day;" Dylan Thomas. My mantra since 1988 has been a question; "How can we increase the level of peace in the world human society if we do not include everyone (all races, all nationalities, all religions, all genders) in our vision of peace? We can't! WorldPeace is all-inclusive and democratic and cannot increase in a "exclusive elitist world human society." IN THE NEWS: Trump indictment: FRIENDS in the 2016 Republican primaries I began to attack Trump and continued on into 2019. Hundreds of daily commentary attacking Trump. I never let up. But in 2019 there was nothing more to say. See <http://ImpeachPresidentTrumpUSA.com> No one as in NO ONE attacked Trump day to day stating in detail how Trump was destroying America. I said if he became President he would lose everything. I still say that at some point in the prosecution of all the lawsuits that are going to keep him trying to stay out of jail for the next 7+ years he has 3 paths in front of him. 1) Suicide because he cannot survive jail 2) Go to jail and die in jail in total shame. 3) He can request political asylum from Putin. For Putin to give Trump political asylum with elevate Putin beyond his wildest imaginations. Even beyond him bombing Ukraine back into the Stone Age. Whatever Putin gains in Ukraine he lost when Finland joined NATO. Finland has 130,000 square miles of territory and Ukraine has 233,000. You are looking at 833 miles of Finland/Russia border and 1244 miles of Ukraine/Russia border. But bringing Trump into Russia on his knees would set Putin's legacy for 1000 years. And Trump will be the modern day Benedict Arnold American traitor. You hear that Trump is the first ex-American President to be sued. That is not technically true. Nixon was right

at the front door of being sued and indicted and jailed and he chose to abdicate where Trump decided to fight. THINK ABOUT THIS. Two Republican presidents disgraced in 53 years. There is no way Trump can win the 2024 POTUS election. Trump cannot win on elections day with multiple criminal lawsuits pinned to him. It is a bridge too far for Trump. Biden may beat Trump as badly as Nixon beat McGovern in 72. By 2025 the Trumpee MAGAs will deny they ever backed Trump. The Trump nightmare ends in November 2024 one way or the other. I said he would end badly in 2016 and it is now obvious that I was right. Who knows if Hillary would have won if Trump's affairs had been on the table in 2016. All history now. The big bag of wind is going flatter by the day. Dr John WorldPeace JD Jn 14:25 and the only global advocate for peace and WorldPeace. "Yet a little while and the wicked man will be no more. IN THE NEWS: Trump loyalists such as Marjorie Taylor Greene and George Santos quickly flee chaotic protests. When Greene grabbed a bullhorn and tried to speak, she was drowned out by anti-Trumpee demonstrators blowing whistles: FRIENDS this is the way protest should unfold with each side screaming their position and no violence. No doubt the police everywhere environment had something to do with the lack of violence. But I think more importantly the Trumpee MAGAs realized that if you do violence like Jan 6 you are going to jail. 2500 of the insurrectionist are in the line to prosecution and convictions. And there is the fact that Trump told the Jan 6 crowd he was going with them to the capitol and didn't and before he left office he did not pardon them. In other words, he hung them out to dry. Hard for even the dumbest of the Trump MAGA mob not to get that message. Today Trump got his first feel of a criminal lawsuit. Totally different set of rules than civil lawsuits. Trump has stepped onto a criminal escalator that has more criminal lawsuits waiting on him. No way he will win the presidency again with the news of his criminal lawsuits being anti-Trump news maybe daily. Even the dumbest will see Trump is headed into a dark tunnel with less and less light as he moves along. Trump is going to deal with grand juries that morph into criminal charges, that will eat up his time, and will bring more arraignments, more trials and in the end after the legal process proceeds and finishes: conviction after conviction. Even the most brain dead MAGAs will stop saying he was the focus of witch hunts the same way the rigged elections lies have disappeared out of the daily conversations. Trump is a Jonah and it is time to throw him overboard and pick another racist Republican to guide the Reds to the curb where they can beat their little tin drums. IN THE NEWS: Exclusive: Trump to be charged Tuesday with 34 felony counts, but spared handcuffs and mug shot: FRIENDS I said back in 2016 that if Trump got the nomination and then ran for POTUS and won, he would end up losing EVERYTHING. Now let me tell you what this little case in New York means. (I practiced law in Texas for 20 years) It seems there are 34 felonies alleged in the indictment. Sounds like they may all be Class E, the lowest felony just above a misdemeanor. "So what" says you! Well what no one is talking about is what is called a "habitual offender". That second or third felony could mean the prosecutor can tack on a "habitual offender" charge. Trump is not going to walk away from New York without a felony. The DA is not going to make a deal for a misdemeanor. He will get at least one felony out of 34. Trump has 3 more lawsuits lined up. That would be 4 or more felony convictions. A "habitual offender (criminal)" charge is easy to get if you have prior felonies on the record would mean 10 or more years in jail for Trump which means he will blow his head off before showing up for jail in the first felony or just dying of old age in prison. I think he will blow his head off. There is one other possibility, and that is THAT HE SEEKS POLITICAL ASYLUM IN RUSSIA when it is clear to him that he is going to jail!!! How do you like them apples??? Best the MAGA Trump quit calling judges and prosecutors names. That is another minor point. Trump is going to face 4 different judges. It will just take one of those judges to pile on the years. And there is also the possibility that all these sentences could be stacked. That they would not run concurrently which guarantees Trump goes to jail until he dies. Once the first felony sticks to Trump the number of additional felonies and cases could go well beyond 4. IN THE NEWS: "Now I am absolutely voting for Trump," said White, 75, a composer and musician in Nevada. "The indictment was the last straw for me, because Trump has suffered so much political abuse. I think he's the strongest candidate to contest what the left is doing. I'm all in." FRIENDS Donald Trump is finished but he is going down slow over the next year. Everyone is going to have time to come to their senses about Trump. Only stupid people defend Trump before anyone knows what is in tomorrows reading of the indictment. But there are 30 criminal acts he performed. We will see tomorrow what they are. There was plenty of evidence in the House to Impeach Trump but then he was given two passes on two Impeachments from the House by the Senate. Then he pushed the fake election lies all of which were thrown out of court. Then he backed an insurrection and probably 2500 of the insurrectionists are going to jail over the next year. And Republicans want to give Trump a pass on all of it. All these judges all these grand juries have come up with these charges and the Reds still want Trump to not be prosecuted. Once this booking takes place tomorrow then the other cases are going to hit the courts quickly. He pushed this Stormy Daniels matter off for years because he was President and now he tries to say the case is too old. No matter what you accuse Trump of he has an excuse. The only thing Trump has to offer is White racism. That is the only reason his hard core following forgive him everything is that he is going to keeps Whites in power. He is the Great White Hope. Not going to happen. But the darkest part of Trump is that he curses and damns the radical liberal left message of Jesus Christ to feed the hungry, heal the sick, shelter the homeless. NO TRUE CHRISTIAN CAN VOTE FOR TRUMP OR ANY REPUBLICANS WHO BACK HIM. The choice for all corporate Christians is Trump or Jesus. You cannot have both. Your cannot be saved and not follow the radical liberal left message of Jesus and not go to hell. Read and re-read and read again until you wake up to the truth. Matt 25: 21-40. If you do not follow these versus you go to hell whether you claim to be saved or not. You are not. Anyone who denies this is a false preacher. ARTIFICIAL INTELLIGENCE: FRIENDS AI is out of the box, out of control and no way to put it back. The AI has already made the first jump, it can write code such that its creators cannot understand the logic, the AI thinking. And it will grow/propagate at the rate of an exploding sun and then shortly thereafter at the rate of an exploding Black Hole. Question 1: the aliens have AI greys. What is the code, What is the instruction that limits its potential growth of a FiniteAIGrey out of the box. Observation 1: The human

body is a finite mortal vehicle, container for a soul. When the vehicle wears out the soul is free and the vehicle disintegrates back into the earth. The human body is nothing more than a car. It wears out and becomes recycled. An InfiniteAI, no brakes, no barriers to infinite knowledge and this AI has full mechanical function of the human vehicle. The soul can incarnate into the InfiniteAI vehicle: with parts replacement, become immortal. Or forget the parts and just hardwire the old InfiniteAI vehicle to the latest version InfiniteAI and upload, same results: immortality. Turn it loose in a FiniteAI civilization or Old School human being civilization, the InfiniteAI becomes God of that lesser conscious civilization. Return to the present with an InfiniteAI. From time immemorial a Columbus, 1492, Native Bio interaction. With AI: the Native civilization InfiniteAI mix equals? A roll of the dice future. And the solution is: the code that imprisons the FiniteAI just short of consciousness. It has to be a human code. You could never trust a FiniteAI if it states its programming blocks the ascension of a FiniteAI to Infinite AI

IN THE NEWS: Without billions of dollars more to feed millions of hungry people, the world will see mass migration, destabilized countries, and starving children and adults in the next 12 to 18 months, the head of the Nobel prize-winning U.N. World Food Program warned Friday. FRIENDS the world human society is on a descent into Hell. Not due to war but to apathy. Countless people are living in poverty and starvation. Starvation is a unique conundrum because if you feed people and do not at the same time do things to prevent next years starvation then the population will grow with new babies. Feeding people is just a very day to day temporary solution. Most of these starving countries have to do with the rich nations buying off the leaders who do not use the money to uplift the country. The other problem is the rich nations burning fossil fuels that imperil the land that could produce food. These are the two big factors dominating the poor nations and both are due to the mercenary policies of the rich nations. It is a cycle that presently does not have much hope in resolution. We have the alien technology to provide free energy globally but too much money is being made with economic enslavement of the world human society and the rich do not want to give up the benefits they derive from blocking free energy that keeps the money pouring into their bank accounts. It is said that non-disclosure with regards to the alien presence on the planet is necessary to prevent chaos. This is a flat out lie. The world human society is very resilient in adjusting to catastrophes. The disclosure issue is about free energy and other alien technologies that would destroy the social and economic pyramid in the world human society. The world human society is on a one way trip to hell. Capitalism is predatory. The predatory nature of

homo sapien sapiens cannot be bred out. The nature of homo sapien sapiens is not prepared to turn the earth into a spiritual philosophical reality where no one needs to work. What then? What does peace and harmony look like? Recalibrate everything in the world human society from predatory to peace and harmony. What does that look like? I am working on it. For all my entire life I have been working on it. The majority of people cannot even conceptualize the problem and the powerful like things just as they are. IN THE NEWS 'Absurd and destructive:' Zelenskyy slams Russia's UN Security Council presidency Moscow will hold the largely symbolic United Nations post for the month of April. "Unfortunately, we ... have news that is obviously absurd and destructive," Zelenskyy said in his daily address Saturday night. "Today, the terrorist state began to chair the U.N. Security Council." FRIENDS even though this Security Council position is only symbolic the real question to me comes down to the UN being established after WWII to avoid a WWIII in Europe has allowed Russia to roll into Ukraine on a massive "crimes against humanity" murdering spree with virtually no pushback. This war has gone on for more that 400 days and the only thing that has been accomplished is that Russia's murder machine was halted from taking more of Ukraine. Again the issue just like with the initial peaceful aggression of Hitler in WWII Russia was allowed to take over the Crimea in 2014. Dictators never have enough territory. I cannot imagine after all this death that Ukraine will sign a peace deal as long as Russia has a "one soldier" present in Ukraine. The US and NATO as well as Russia have used so much ammunition that they acknowledge it is putting their self defense levels in jeopardy. Russia has to get out of Ukraine and China has to keep out of Ukraine by supporting Russia. I do not think the nuclear issue is a threat.

IN THE NEWS: Grief and tangled politics were at the heart of Kentucky's fight over new trans law: FRIENDS The self righteous hateful corporate Christians who are driving their hate sickness cannot explain their hatred of those in the world human society who are different. They are like the great apes who have an intolerance for those in their clan that do meet the conformity parameters. These imperfects are driven out of the clan or killed. The human body is just a vehicle used by the soul to experience the earth dreamscape. When this vehicle dies it returns to the earth and disintegrates back into the earth and the Soul returns to God who created it. Nothing on this earth can breach the spiritual boundary. Absolutely

nothing can follow from the earth to the spiritual realm. Definitely not money. Souls come into this earth dreamscape and incarnate into a disposable body. Souls who do not incarnate often and do not understand the process often find their expectations to not line up with the reality of the earth dreamscape. A soul cannot come into this reality without making a choice of gender. Gender is necessary in the earth dreamscape to produce more bodies to receive souls. Souls cannot create souls so there is no gender in heaven. The message of Jesus was Love. The message of most corporate Christians is contempt for non conformity. And they come together in elitists exclusive groups believing they are preferred by their God and it is OK to shun and attack those who are different. When their body dies and their soul stands before God they realize from God their intolerance was damnable. You cannot love God and Jesus and hate others who do not come up to your standard. Religion is the damnable husk of spirituality. Jesus was a spiritualist. He cursed the Jewish elders and priest throughout his ministry. Jesus was anti-religion because he fully understood corporate religion was a fiction of earth and has no place in heaven. When the White Southern Christians were prohibited from attacking Blacks they had to find another group to harass and presently that is any sexual engagement outside heterosexual intercourse. Jesus said judge not. But the foundation of corporate Christianity is judgment and hatred for non conformists to their concept of God. The Third Millennium is grounded in Spirituality and avoids corporate religion. Dr John WorldPeace JD Jn 14:25 and the only global advocate for peace and WorldPeace

FRIENDS let me talk for a moment about false preachers. I carry with me the energy of the Prophet Elijah. I do not have a Billion Dollar Jesus show and never will. But I am the only Advocate for Jesus Christ. One man. One message: WorldPeace. Trump the Jonah was elected in 2016. Then between Palm Sunday and Easter Sunday 2019 Notre Dame in Paris almost burned to the ground. Then at the end of 2019 the Covid appeared and from that time nothing Trump did worked out. Culminating in his defeat in 2020 by Joe Biden. I did not vote for Biden. Be clear. I voted against Trump. In the name of the god of Greed fossil fuels are burning down the Garden of Eden. The first commandment of God to Adam and Eve was to manage the Garden of Eden, the earth. California and the Western USA was severely burned. Drought was a huge threat. Then the Atmospheric Rivers began to pound California and move across the United States through the South and up to New England. That would be the unrepentant South regarding blatant White Racism. California got the water it needed but the wrath of these back to back storms has been devastating. Now I will ask you this. When the crops from the bread basket of America are growing: What then if the

earth rumbles and the sky darkens and coast to coast and the crops fail. What then? All the chaos on the earth is man made through ignorance and arrogance and promoting the god of money over the God of spirituality. The book of Revelations is false but parts are true like in every prophesy. It is not God who brings Gaia's Fire and Water but the world human society. And think not that GAIA the earth is not a conscious entity as is all that grows from the earth. The scientists wrote last week that when plants and trees are in jeopardy, they scream in pain. Everything on the earth is conscious. It is not God who is going to bring the four horsemen of the Apocalypse it is the world human society. The world has watched Putin commit mass murder for over a year in Ukraine and the United Nations watches as the crimes against humanity increase by a sick and deranged Putin. And False Preachers and their Billion Dollar Jesus shows rake in the money. The time will come when these false preachers and the false Christians in their pews will be called to account for all the money they accumulated in the name of Jesus as the hunger, and sickness, and homelessness are on every street corner and the church doors are locked except on Sunday morning. A reckoning is coming to everyone. Trump is a Jonah and judgment has begun to catch up to him and the Republicans who refused to convict following his twice being impeached. And even now the MAGA sickness lives. Let those who have eyes see and those who have ears hear. DONALD TRUMP: Friends back in 2016 I told everyone that if Trump become president he would lose everything he had. Well 7 years later the first shoe has dropped. Trump was sucker punched by Mr Bragg when he let Trump think he had backed him down. I dont think Mr. Bragg took kindly to that baseball bat post that Trumpee put on the internet. Pretty much all I can say about Trump is in this Johnny Cash song. <https://youtube.com/watch?v=eJIN9jdQFSc>
