

The Radical Right is determined to deny in all public schools WOKE, DEI (Diversitition, Equity, Inclusion)) AND CRT (Critical Race Theory)

IN THE NEWS: The Florida Board of Education approved a new set of standards for how Black history should be taught in the state's public schools... The new standards come after the state passed new legislation under Gov. Ron DeSantis that bars instruction in schools that suggests anyone is privileged or oppressed based on their race or skin color. DeSantis has used his [fight against "wokeness"](#) to boost his national profile amid a [national discussion](#) of how racism and history should be taught in schools. The new standards require instruction for middle school students to include "how slaves developed skills which, in some instances, could be applied for their personal benefit," FRIENDS This is blatant racism along the lines of George Wallace governor of Alabama in the 1960s picked up by Governor DeSantis of Florida and Governor Abbott of Texas. What this shows is that there has been this underlying attempt since the 60s to reverse all the Civil Rights legislation. It is time to cut off the head of this KKK snake once and for all. The MAGA racism of Donald Trump now undeniably fully embraced by the Republican Party must be purged from America and these attacks on the Constitution of United States under any banner of racism must come to an end. To suggest that slavery was a form of on the job training is the most ignorant "comment every made" in the history of America.
