

This is a Query to your university, college, teaching entity, for the purpose to Establish a Department of Peace Studies in a USA or World University with a curriculum for a BA, MA, PhD. At present there is no such curriculum in any university in the world human society; an anomaly.

This is also a political message personally sent by Dr John WorldPeace JD the independent maverick write-in candidate for President USA 2024 <https://drjohnworldpeacejdforpresidentusa2024.com/>  
Said candidacy is part of my on going research regarding increasing the level of peace in the world human society.

You will not get another email from me on this matter due to the significant numbers of universities that I intend to contact. Jwp
