

This is a Query to your university, college, teaching entity, for the purpose of establishing a Department of Peace Studies in a USA or a world university with a curriculum for a BA, MA, PhD. At present there is no such curriculum in any university in the world human society; an anomaly.

I am Dr John WorldPeace JD the only global advocate for Peace and WorldPeace officially since April 1988 when I legally changed my name, and the self-designated one to remove this anomaly.

That said: Do you really understand how radically insane an idea it is to seriously advocate Teaching Peace in a university. Surely you understand that people hate peace and more so those who advocate it. Why? Because people hate change more than they hate Peace. And increasing the peace in the world human society can only ride into the world human society on a vehicle of change. Dr Jwp JD 240926

1)But there is a greater impediment to teaching a peace curriculum leading to a BA, MA, PhD in a university. It is a conflict with the mandate of universities to define the core impediments to increasing the peace in society that maintains, if not decreases, the level of peace in the world human society: and the impact that those revealed truths, of the corrupt manipulation of truth in the world human society in order to manipulate/control human beings with not truth, that will cause chaos in the streets. The university is mandated to seek out truth and then to publish and propagate that truth which will cause chaos when the human beings require change in line with that truth.

Therefore, the question is what are the institutions' determinations regarding what will be researched and what will not be researched. This discussion of what to teach will cause disharmony on the board which migrates to the faculty which is picked up by the student body.

2) So we are presently living within unsustainable society constructs and also the fear of greater chaos in admitting the foundational truths of that unsustainability.

That said, there really is no choice but to teach peace and deal with the causes of that unsustainability; to in the short run possibly increase the chaos and decrease the peace but in the long run move toward a long term greater level of peace in a more sustainable sane and just world human

society. So now you understand that saying of Jesus that he did not come to increase the peace but to create chaos now (as the only path to increasing the peace later.) SEE 1) ABOVE.

Now that I have put this in front of you and recorded the date and time of such revelation you can no longer deny understanding the problem and acknowledge the apathy. Again, this is the same as Jesus saying if he had not told these things to people they could deny knowing them and therefore be without sin.

What is presently being taught, if anything in universities around the world is a random salad of peace personalities and events that do not lead to a BA, MA, PhD: but just talk. The following is the global foundational structure of teaching peace: A. There are eight entities that will initially be part of this project. These are the entities that presently have the most significant impact on the level of peace in the world human society: 1) Government – politics 2) Religion 3) Courts of law 4) Universities 5) Global and Local Corporations 6) Social media 7) The United Nations 8) Peace organizations B. The most significant individual areas that should be discussed within the eight entities above are: 1) Racism 2) Subordination of women 3) Poverty 4) Mass Extinction of Flora and Fauna 5) Climate Change 6) The Pandemics and vaccines 7) Hunger 8) Democracy 9) the predatory nature of capitalism (there are many more lesser impactful human areas to be added) 8 entities x 9 areas = 72 compartments.

THE MOST CRITICAL EDUCATION RELATED PRIORITY IN AMERICA AND THE WORLD IN THE THIRD MILLENNIUM IS TEACHING PEACE.

This email is also a political message personally sent by Dr John WorldPeace JD the independent maverick write-in candidate for President USA 2024

Said candidacy is a part of my on-going research regarding increasing the level of peace in the world human society.

You will not get another email from me on this matter due to the significant numbers of universities that I intend to contact until I find a home for my Teach Peace project. Jwp

If after receiving this email or hearing about it from others, a university is not interested in creating a teach peace curriculum, then a \$1,000+ donation to the cause by a university, \$250 individual donation by the university president, \$20 from those who received this email, \$5 from every student at said university is appropriate.

From the 60s when I was an under-graduate at the Univ of Houston from 1966-70 consider this:

IF YOU ARE NOT PART OF THE SOLUTION, YOU ARE PART OF THE PROBLEM.

And this from a fellow student then who I asked “What do you think about apathy?” Response: “Who cares?”.

Dr John WorldPeace JD foundational perspective on making teaching peace a reality in the world human society and filling the role of the only Global Advocate for Peace and WorldPeace.

Whatever you can do, or dream you can do, begin it. Boldness has genius, power and magic in it. Goethe

Until one is committed, there is hesitancy, the chance to draw back, always ineffectiveness. Concerning all acts of initiative (and creation), there is one elementary truth, the ignorance of which kills countless ideas and splendid plans: that the moment one definitely commits oneself, then Providence moves, too. All sorts of things occur to help one that would never otherwise have occurred. A whole stream of events issues from the decision, raising in one's favor all manner of unforeseen incidents and meetings and material assistance, which no man could have dreamt would have come his way.
