### Overview:

Lived in Houston 1948 to 2011 then Albuquerque

I am a 76 year old high energy, high IQ polymath. I have a website at [johnworldpeace.com](http://johnworldpeace.com) with 42,000 pages on it. I feel like I am 50. I have degrees in Political Science BA 70, Bachelor of Accountancy (a 5 year degree) 78, Doctor of Jurisprudence 84, all from the University of Houston. I worked full time acquiring these degrees which took 10 years. I did not borrow any money and I did not receive any scholarships. No help from family. I also have a CLU (Charter Life Underwriter) designation which required 30 college hours and 5 years experience. I also have a CPCU (Charter Property and Casualty Underwriter) designation which required another 30 college hours.

My vetting documents are here:

<https://drjohnworldpeacejdforpresidentusa2024.com/DrJohnWorldPeaceVettingDocuments.asp>

In 1970, I was drafted into the Army, was trained for 11 months as an infantry sergeant for Vietnam but when I reported to ship out in September 1971, I was sent to the Southern European Task Force (NATO) in Vicenza, Italy. I was honorably discharged in May 1972.

Employment Summary: 1972 I began selling Life Insurance then worked in my fathers Insurance Agency also selling Fire and Casualty insurance. I was self-employed. In 1976, as planned, I went back to college to get an accounting and law degree. I had about \$65,000 in GI educational benefits that were about to expire. In 1977, I took a job in accounting making \$12K a year. I changed jobs 3 times to assistant controller, controller, Finance and Operations VP. In 1980, I was making \$60K a year. In December 1980 I had a personal choice to look for an \$80,000 year job or start my own accounting business, I chose to start my own business. After 6 months I was grossing \$6,500 a month ~ \$78,000 a year. In 1984 I added a 1200 client tax return business and in 1985 after getting my law license I added legal services and within a year I had 507 open legal files. I expected to gross \$1 million in 1986.

However, on Jan 1, 1986, my first wife demanded a divorce after 19 years of marriage and 4 children 10-16. I forced her to go to 11 months of marriage counseling because I did not want

to end the marriage unless there was no chance to continue life with her. I never wanted to look back and wonder if the marriage could have worked.

She got the accounting biz which was doing about \$110,000 a year, and the house, and the children, and I left with my truck and motorcycle and my clothes. I knew she did not want the children but wanted \$10,000 a month in child support. No chance. A year later she realized she was not going to get but \$250 a month in child support. At which time she gave me the kids.

I found another wife who had just divorced and had two children the age of mine. We married in 1990, raised all the children and then in 2007 we divorced. Like the first wife she never did say why. There was no drinking, drugs, abuse issues. The whole 19 years together we were fighting our families and our children and we were both worn out.

Both marriages were partnerships not love affairs.

I had two more relationships, the last ended in October 2016, and I have not dated since.

In 2003, with wife 2, I started a web design biz from scratch same as the insurance, accounting, tax, and law business without borrowing any money. My youngest son was living in the Philippines after discharging from the Marines. (My other two sons were also in the Marine Corp) In December 2006, we billed \$75,000 and we were growing at 35% a month. My son was in control of the production in the Philippines. He tried to blackmail me for \$25,000 due to his mother's influence and shut down production. There were 45 employees in Houston and in the Philippines. I shut down the business and endured intense hell that was a significant cause of wife two leaving the marriage in March 2007. I have continued a remnant of the web design business to this day. I did not take any more business after 1988, when the kids came to live with me and wife 2. We lived off the business I already had.

In 2011, I moved to Albuquerque, New Mexico and ran my web design business but did not solicit any new business since 2007. I devoted 90% of my energy to developing my art and publishing my poems that I had been writing since 1970. I have a 110 poem books for sale on Amazon. I put all my energy into developing the art and poetry publishing but spent no time marketing ether.

Now I am ready to go back into the corporate business world. I will take some of the money earned and begin to market my art and books which will just take a little time buying ads.. I have another 40 books on Christianity and Eastern religions and peace and politics. All my books were self published with Amazon.

Understand that I started work in 11<sup>th</sup> grade and have worked 80 hours weeks (part of which was devoted to college) since then. So the truth is that I have about 70 years of business experience as opposed to 40-45 years which most people retire with.

I always expected to live to 100 and so I created my own businesses such that I would not be forced into retirement. My parents both died at 86 but could have lived into their 90s if they had taken better care of themselves. My grandparents lived to 77, 82, 82, 91. All of them

had remarkable recovery ability from serious health issues. So I expect to live to 100 and have decided that I need to go back into the corporate world. The web design business came from the internet. I have not had any walkin clients since 2003.

There is no university in the world for degrees BA, MA, PhD in peace studies. I am considering finding a university to work with. I have enough content for all the degrees. It is all on my website: [JohnWorldPeace.com](http://JohnWorldPeace.com)

Obviously, I have excellent people and sales skills or I would not have been able to start and maintain all my businesses. It was critical for me to accomplish what I have with my art and writing. I wrote poems from 1970 to 2018 before I published anything. By October 2019 everything was published but I continue to write a poem book each month. All my books were self published on Amazon. Just search Amazon under books for Dr John WorldPeace JD.

The reason no college teach peace has a perfect scenario in what has been happening with campus riots over Palestine. In order to began a first ever course in Peace Studies you have to have approval of the board as to what will be taught. And in truth, that discussion will develop into chaos and maybe civil war on the board that will filter down to the faculty and the student body. So if you want to teach peace you need to be prepared to shut down the university.

Therefore, I am going to create the curriculum and then convince the world's universities to allow their students 6+ hours of elective credit by taking some of my courses. At some point some university will take me on and I will from there be able to propagate the curriculum to other universities.

Objective: I am looking for a top end challenging employment. The ideal job for me is a situation in a large corporation that is having internal problems within and between departments that requires someone to come in and solve the internal inefficiencies, broken communication lines, inability to follow the company plan, replace key employees, motivate sales, reduce theft, evaluate insurance coverage, work with HR to find the right people for various department heads, write up daily reports on how the over all objectives are moving forward.

I can work 16 hour days 7 days a week. My objective would be to move quickly to define and implement needed changes. I have been using computers since January 1980. I can program websites from scratch using html, asp but have no skills in other programming languages. I can lead creative development projects.

Skills: Able to solve complex, multi-department, multi-level, business problems. I have excellent people skills on all levels. I can work with Boards and virtually all departments.

I am interested in challenging life and work.

Generally:

Family: I first married in 1969, had 4 children all in their early 50's now with their own families. Most live in Houston, one son in the Philippines. I divorced wife one in 1987, Connected with

wife two 1988 and we were together until 2007. We both had children, me 4 she 2, same ages. We had to move to Colorado to get distance from our Ex's. Last child graduated HS 1995. My 3 sons went into the Marine Corp right after high school. My first wife's family had significant mental issues that I did not find out until 10 years after we married and after all four kids were born. All my kids have mental issues but unless you know them well, you would not recognize those issues. My first wife is seriously evil person but acquired her CPA and retired recently when her father died and left here a significant estate. I have not talked to her since 1991 at which time I refused to be in any space where she was. So I went to few family events involving my kids. My childhood and until I was 30, was full of happiness in a large extended family.

I submitted for the Pulitzer Poetry Prize for 4 of the last 5 years. I will write a book about the experience this year.

I am a spiritualist not a religionist. Follower of Jesus. Reinterpreted the major text in each of the major religions and have about 8 books on Christianity. I was an every Sunday Presbyterian attender from birth to when I started college at 18. Then there was no time. I am also well read about Hitler and the Civil War. My mothers side of the family was in America since 1700s Grandfather sgt in Revolutionary War hand full of grandfathers in Civil War for the South, One a surgeon and others officers and enlisted men. Some owned slaves.

Vetting documents

<https://drjohnworldpeacejdforpresidentusa2024.com/DrJohnWorldPeaceVettingDocuments.asp>

Residence: 1948-2011 Houston, Texas ~ 2011-present Albuquerque, New Mexico

Also at various times, Centerville, Texas, Veteran Infantry Sgt 1970-1972 assigned to NATO Southern European Task Force, Vicenza, Italy, Denver, Colorado

I never intended to retire and haven't. I expect to live past 100.

Been in 5 significant female relationships 1964 to 2015. First marriage 4 children born 71, 74, 75, 76. Have no relationship with ex-wives, occasionally talk to middle son. Been alone by choice since 2015. Not opposed to another relationship, but not looking; alone but not lonely.

Changed my name from Kenneth Edward Wolter to John WorldPeace after 1<sup>st</sup> divorce and right before I turned 40, April 1988. I had accomplished all my business and educational goals when wife one wanted a divorce. I was 38.

Not interested in any retirement, profit sharing plans, 100% healthcare provided by VA. Had a heart attack 1997, cholesterol was 400. I refused the by-pass. In 2016 I finally agreed to a bypass. I don't really know anyone my age that is as fit as I am but I have never been an extremist. Yogo, Gym, Bicycling, jogging since I was 13 but I ride a bicycle now. Tuned into politics. Ran for Governor of Texas 2002. I am a radical liberal, and adamant gun rights advocate. But I do not discuss politics with clients or employers.

Albuquerque has been a place to tie up a lifetime of loose ends. I have been here for 13 years and am ready to take on the next adventure. I have lived on small farms and ranches and in big cities and big small towns. I am flexible. I can move anywhere in the world with 2-3 weeks notice.

Sincerely,  
Dr John WorldPeace JD
